### Scholastic Chess

Scholastic Chess opened in Hong Kong this year to promote chess among students. As well as occasional free events and fee-paying classes, it is now running a student-volunteer scheme.

Participating students run free classes for the elderly at Hong Kong SKH Lady MacLehose Elderly Centre and for adults with Down syndrome at the Chinese YMCA. Primary and secondary school students who know how to play are welcome to join the scheme by calling 6629 5092 or checking the Facebook page of Scholastic Chess HK.
